Feature Film

We Found Bigfoot

An Adventure Story with Heart

I've always been fascinated by people who dedicate themselves to searching for something they've never seen but sincerely believe exists. What drives them? What keeps them going when others tell them they're wasting their time?

That fascination is what inspired me to make *We Found Bigfoot*.

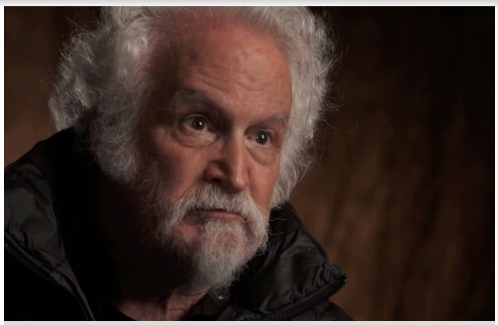
While the film is an adventure, it's also a story about tenacity, caring for others, leadership and the importance of not giving up on something you believe in.

Throughout the film, you'll discover a great deal about the Bigfoot phenomenon. The encounter stories and interviews are based on actual reported sightings and the experiences of people who believe they've encountered this elusive creature.

But beyond all that, I wanted to make a movie that was simply a lot of fun to watch. An adventure filled with mystery, discovery, humor and heart.

I hope you enjoy watching it as much as I enjoyed making it.

— Tom Monson



A scene from We Found Bigfoot recreating Wally's encounter

The Origin of This Film

It all started in 1972 when a man named Wally shared his compelling story of a Bigfoot encounter, igniting a curiosity that would burn for 40 years. Along the way, I discovered that the people searching for Bigfoot possessed a remarkable spirit of adventure, passion, and wonder that continues to fascinate me to this day.

A character reenacts Wally's story in We Found Bigfoot
